MISSION STATEMENT

Our mission at Four Rivers is to provide high quality services that meet our client's needs in a cost effective way and timely manner. Four Rivers experienced staff is dedicated to professionalism with one goal in mind; to create, maintain and retain long-lasting customer relationships.

OUR FIRM & STAFF: Four Rivers Engineering & Surveying is a family owned business with collectively over 50 years of progressive experience. The founders of Four Rivers are committed to the profession and take a great deal of pride in their work, and also their customer relationships. Four Rivers knows that its customers are the driving force behind a successful business. We take all the necessary steps to ensure that our clients receive the attention they deserve and that they receive their products in a timely and cost-effective manner. In order to satisfy our customers' needs, Four Rivers offers a full range of Engineering & Surveying services, utilizing the most technological equipment and programs available in today's market. This will allow us to perform our job with a quality assurance that will ultimately save our customers time and money.
